

<b>Position:</b>	<b>Progress OpenEdge Developer</b>
<b>Salary:</b>	Negotiable dependant on experience
<b>Benefits:</b>	Company Pension and BUPA
<b>Location:</b>	Ipswich however home working can be considered

**Summary:**

This is a great opportunity to join our growing company MultiFreight Ltd, a global provider of software solutions to the freight industry.

We have openings for software developers to join our busy development team.

This role is based at our head office in Ipswich however home working in the UK will be considered, with the need for periodic visits to the office for project meetings etc.

A flexible approach to work, being able to work as part of a team and independently with good time management will be required.

**General Responsibilities Include:**

- Provide assistance where required to your development colleagues and the Customer Services team
- Communicate effectively with non-technical customers and colleagues
- Occasional onsite visits to customers for Analysis and Specification Writing
- Meet timescales and deadlines
- Assist with continued improvement of our software solutions
- Report to the Development Director

**Key Skills:**

- A can-do and proactive attitude
- Willing to learn our industry and new development tools
- Good communication skills, telephone manner and be capable of face to face contact with customers
- Good problem solving skills
- Must be able to work on their own and as part of a team, prioritise own workload so deadlines are met
- At least 5 years' experience in one or more of the following; Progress OpenEdge, ABL, GUI, Web Services, REST, .NET, JAVA, XML, Infragistics, Browser or Front-End design
- Must have full UK Driving Licence and willingness to travel
- Previous experience within the Freight/Shipping industry would be helpful but not essential
- Experience with OpenEdge v11 is advantageous but not essential

The candidate can expect the full support of the team to help them succeed in the role.
